For Maverick 'Mav', being one of the top NFL players in the league definitely came with its perks. It was tough being a one woman man since he was a major sex symbol, but he managed to do it until heartbreak starts to spread like wild fire.

When Jalanda shows up in his life, she's the last girl he thought would come and change his life forever. Every girl wanted to be her, but could they handle her life? From battling with trying to be an independent woman, to working with rich athletes, her life wasn't that easy and when she finds herself getting too deep in a situation...it made it that much harder to get out.

When you told one lie, you had to tell another to cover up the last; with baby mama drama and lie on top of lie piling up, she wasn't sure that her and Mav would make it. Everybody knows Eve was created from one of Adam's ribs to be his Companion, but Jalanda constantly ask herself what her and 'Mav' were created for?

Follow this journey to find out how Maverick had to learn that if he wanted to be the man, he had to play his part and learn to put that woman first.
